## 1. How We do it?

---

We listen to your scenario, we analyze your case and based on your profile and personal requirements we set up the right investment scenario that best fits to your case, a tailored made custom solution based on your size and characteristics.

### 1.1 SET UP TARGETS

---

Our qualified team of consultants would sit with you and spend time filtering your personal profile story, requirements, and targets to be achieved. We will set up realistic and achievable targets based on your personal characteristics.

With the help of our team of professional business analysts / Accountants / Lawyers, we will go through a strategic questionnaire and set up the crucial valuable information to build up the right scenario for your case.

The end result would be a conclusive feasible plan based on your personal and family requirements to invest in the jurisdiction of your preference in order to perform feasible investment movements.

## 1.2 IDENTIFY INVESTORS

---

Is a worldwide rule inside the global banking system that no one dollar can be invested unless there is a solid feasible and verifiable economic substance scenario proving the origin of your funds and building the right source of wealth to give you financial freedom movement of your funds in any direction you need.

With the help of our professional team of high-tech Licensed Chartered Qualified Accountants and Licensed Lawyers will help you prepare all bureaucratic procedures and documentation required by banks and Government authorities to perform all your financial money movements.

## 1.3 HOW MUCH TO INVEST

---

Is not a secret why most projects fail, because there is no written strategic plan, no feasibility study with investment appraisal option scenarios on which is the best option to choose, how much to invest, required rate of return on investment, min repayment of capital and other economic investment parameters to be considered.

## 1.4 INVESTMENT - VEHICLE TO USE

---

Our team of high-tech Qualified Accountants / Lawyers specializing in the area of International tax planning / Corporate / Migration / Tax Law will set up the requirements needed and will recommend what kind of vehicle to use and in which jurisdiction?

For example, what kind of company you will need, Dubai / Cyprus / USA? Concluding the decision-making process will be based on your personal feasibility study and would give recommendations on how to move funds, at which direction and with what kind of vehicle which best fits to your case.

## **We Offer Very Boutique and Tailor-Made Solutions for Very Demanding Clients and Personal Cases Only:**

We do the investment project appraisal from the right scratch, we tell you how to move and where your funds, we tell you in which country to form an entity and then how to represent to tax and bank authorities the source of your funds and wealth. Our boutique case clients are proof of our success we bring to your case.

## 2. Where to Invest?

---

We listen to your scenario, we analyze your case and based on your profile and personal requirements we set up the right investment scenario that best fits to your case, a tailored made custom solution based on your size and characteristics.

### 2.1 INVEST IN PROPERTY

---

Our team of high-tech Qualified Accountants / Lawyers specializing in International tax planning / Corporate / Migration / Tax Law will set up the requirements of what kind of investment is best for your case (property or investment in portfolios).

We have a qualified list of licensed property consultants that would go through your personal case requirements (amount of investment, place of property, and required return), and would bring the best solution that fits to your case.

Would physically tour you until you are 100% satisfied you did the right investment.

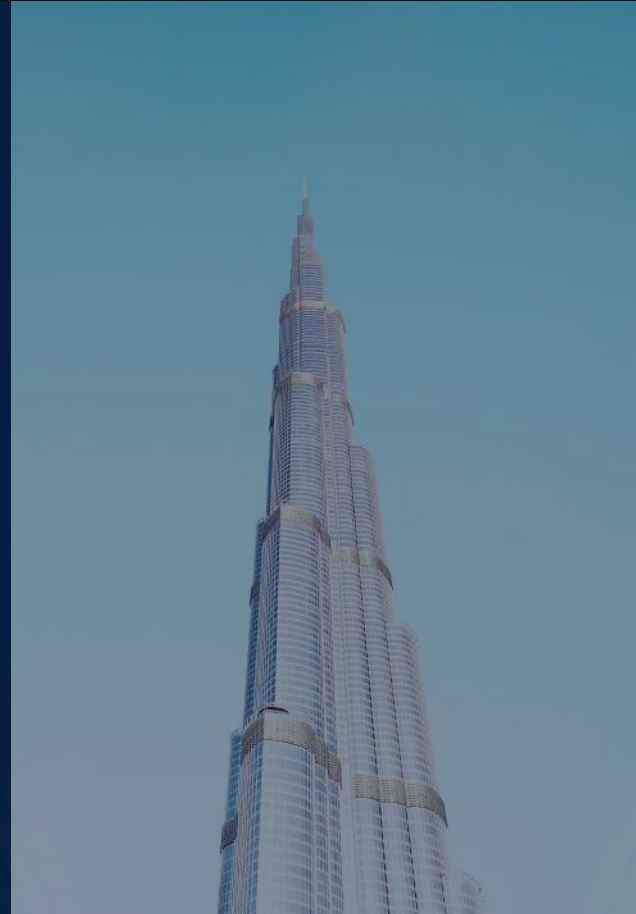

## 2.2 INVEST IN PORTFOLIOS

---

Our team will also set up the requirements of what kind of investment is best for your case for portfolios of your choice.

We have a qualified list of licensed investment consultants that would go through your personal case requirements (amount of investment, place, and required return), and would bring the best solution that fits to your case.

**We go beyond the conventional by not only advising on where to invest but also by outlining the entire process from forming entities to navigating tax and banking authorities.**

Our dedicated team ensures that you have a clear roadmap on how to represent the source of your funds and wealth, aligning with regulatory requirements and best practices.
